

BRIDELA™ Fire Blankets (certified to BS EN 1869)

The BRIDELA™ fire blankets fully comply with the requirements of the British/European standard BS EN 1869 and have been independently tested and certified accordingly. They are available in a variety of standard sizes and have the added benefit of over 25 years of fire protection experience behind them.

Efficiently packaged in a choice of containers (flat pack or tube pack) for domestic or industrial use, these fire blankets, when draped over a fire, smother the danger by starving the fire of oxygen.

The BRIDELA™ fire blankets can also be used to wrap around a person whose clothes are on fire.

Suitable for use in a variety of different environments including kitchens, factories, offices, caravans, stores, schools, restaurants, hotels, boats, nursing homes, shops, laboratories, etc.

- Product independently tested and certified to BS EN 1869
