

**More than 1 million jackets**  
already supplied to the plastics industry

## **Barrel Insulation Jackets (plastics industry)**

The prestigious BRIDELA™ barrel insulation jackets offer excellent insulation benefits for the barrels of injection machines, blow moulders, extruders, extruder heads and lip dies, etc.

This specialist insulation product can offer superb savings of up to 40% on barrel heating and is manufactured with the support of over 30 years of experience, so quality is guaranteed.

- Savings of between 25-40% on energy bills
- Personnel protection from heat fatigue and possible skin burns
- Easy fitting and removal for maintenance
- Quicker start-up time
- Extended heater band life
- Rapid pay-back/savings time
- Safe to touch
- Jackets reduce Peaks and total metered heat energy load
- Made from heat-resistant materials
- Jackets resist steady temperatures of around 350°C/662°F with temporary peaks of approximately 450°C/842°F (higher resistant jackets available upon request)
- Cut-outs for junction boxes and thermocouples
- Competitively priced - **Please contact us for a quote**
- **IC International is a United Kingdom manufacturing company who are certified (and independently audited) to the globally recognised international quality management standard ISO 9001**

**Take advantage  
of up to 40%  
Energy Savings**
