Industrial Trade Sewing Services

Please contact us for a quote or Email us direct with your enquiry

An expert bespoke **sewing service** is available where the manufacture of products, to customers' individual requirements, is provided.

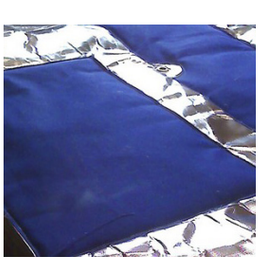

Over 35 years of sewing services and manufacturing experience combine to guarantee the high quality and efficiency of this excellent specialist sewing service to create tailor-made, bespoke products.

Raw materials are usually provided on a free-issue basis by the customer. Alternatively, if it is a material that we already hold in our standard stock, this can be provided and incorporated into the costings accordingly.

Our particular specialty is the sewing and stitching of high temperature fabrics and industrial textiles.

Please click here to look at our product photographs to see the type of products we can manufacture.

Product Photographs
